# CLEVEREDGE PRO
Rectilinear Luminaire

WILA

DESCRIPTION

Cleveredge Pro is an indoor rated rectilnear luminaire for general lighting applications. With a "back-to-basics" design utilizing suspension mounting, Cleveredge is well suited as a modest statement-piece for conference rooms, restaurants, hospitality venues, and more. Its name is the first indication of its "clever" design, having a multitude of finish options for the trim surrounding the edge-lit LED board: finishes range from painted RAL colors to specialized wood, marble, or concrete textured finishes. Luminaire is available in three sizes, all complemented with power and CCT selectability using a rear-mounted switch. Also available is a field-installed emergency battery backup for 90-minute minimum runtime.
